To create a life you love, it's essential to articulate who you are, what you value, and your purpose. Ascentim will guide your participants through concepts related to that process so they can see how clarity and a roadmap to reach their peak is essential.

SPEAKING TOPICS ARE FOCUSED ON **ASCENTIM'S THREE PILLARS:**

CULTIVATE **CONNECTIONS** TO GAIN AN ADVANTAGE THROUGH THE POWER OF INFLUENCE

Gone are the days when having one mentor was sufficient for growth. We'll explore how building strong relationships with a diverse pool of talented people is essential to achieving long-term goals.

BECOME A HIGH-IMPACT **CAREER** LEADER WITH THE ABILITY TO AFFECT CHANGE

Whether the goal is career advancement or moving in a whole new direction, we'll learn how to step into power to achieve the ultimate career vision.

GAIN THE POWER TO CONTROL PERSONAL **FINANCES** AND CREATE A SECURE ECONOMIC FUTURE

Affluence creates the ability to affect change. We'll discover how changing the money mindset and building wealth is the foundation to attaining financial freedom and leaving a powerful legacy.

Lisa L. Baker
Founder, Ascentim

Hi, I'm Lisa. For more than two decades I've achieved extraordinary success in a series of leaderships roles with Fortune 500 companies that include Microsoft, Citigroup, and Bank One. At Synchrony, I was one of only nine Black female executives among more than 16,000 employees and was the Senior VP and GM responsible for growing the \$2.5B eBay credit portfolio.

I've also experienced my share of hardships along the way — living through bankruptcy, divorce, and career setbacks. Through prayer, perseverance, and God's promises I not only survived, but thrived with record-breaking success, continuing on to build lasting wealth, a great family — including two children and four grandchildren (who call me GiGi) — a beautiful new marriage, and a life I love. It's now my passion to help others do the same and reach their peak.

If your participants are **ready to G.R.O.W. email Lisa to speak at your next event.**
